

## **Indeed Web-App Features:**

### **➤ Available Features:**

- Search: You can search for jobs by keyword, location, job title, or company.
- Filter: You can filter your search results by criteria such as salary, experience level, and remote work options.
- Save: You can save jobs that you are interested in so that you can easily find them later.
- Apply: You can apply for jobs directly from the app.
- Get notified: You can set up job alerts to get notified when new jobs matching your criteria are posted.
- Message employers: You can message employers directly from the app.
- View company reviews: You can read company reviews to learn about the work culture and employee satisfaction at different companies.
- Create a resume: You can create or edit your resume using the app's resume builder.
- Indeed career guide: You can get career advice from Career Guide available in mobile apps not in web application.

### **➤ Suggested Features:**

- Video resume
- AI-powered job matching: Using collaborative filtering or content based Algorithm.
- Interview prep resources
